Saturday, June 22nd

Annual Fall Calving Female Sale

If you need replacements or have any to sell this will be another great sale!

Wednesday, June 26th

Great Sale Large run on call classes

Wednesday, July 3rd

NO SALE!! Happy Independence Day

Our Complete Marketing Service!

This week was our annual Nock/Parsons Memorial sale, which was our largest sale of this marketing season so far with added numbers offered from most all counties, as a portion of the proceeds are donated back to local Cattlemen's associations by VLM. This sale is always well attended by both buyers and sellers and this year was no different. Although logistics did become somewhat of an issue at times we did get through it with flying colors. A much needed thank you needs to go to the VLM crew for a job well done as always! The market at this sale was extremely good as it has been, although as I talked about last week, we are starting to see some slightly weaker spots on certain classes. The cattle with quality, good shots and hard condition could be called steady on the steers especially the lighter and middleweights with the heifers pulling back an additional \$.10-\$.15 compared to their steer mates. The cattle from a cooler address and cattle with limited shots or limited quality would be called slightly lower across-the-board with decreasing demand. This pullback is usually talked about and about eight years out of 10 is the norm. That said no need to panic as the total dollars are still well above the previous all-time highs and we will all be super happy with the overall prices, even as we move forward through the summer lull. Timely marketing is talked about often and this year looks to be no exception. Cows and bulls also still at the upper end of the recent range still selling at all-time highs called steady in a good offering each week. Look for these historic prices to most likely continue for some extended period of time moving forward! Also if you need replacement females or have some to sell. Don't miss our annual fall calving cow sale Saturday, June 22 as this will be another great sale. See you at Ringside, Randy

Basic Vac (At branding)

Inforce 3

One Shot BVD

Ultrabac 8

Show this card where you purchase your vaccines to make sure you get the right ones!

Premium Vac (3 to 6 weeks prior to marketing)

First shot with Basic Vac protocol plus second shot with: Bovi-Shield Gold One Shot

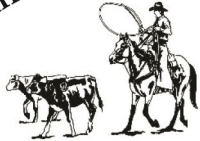

Ultrabac 7 Somubac

Have you tried Multimin?

Many producers have been adding Multimin to their lineup while preg checking cows and at vaccination time on the calves. Proper trace minerals are necessary for optimal fertility, vaccine response and health in cattle. More uniform groups of healthier calves equals more pounds to sell at weaning.
